Subject: FW: DRAFT flyer for East Chicago drinking water

Hi Rita,

If you run this by IDEM, could you specifically ask if they can review for accuracy on:

1) Use of old and new water treatment plants.

2) Application of an appropriate phosphate for CCT (i.e. at the least that they are using a blend that includes ortho-, not just poly-, phosphate).

Thanks,

Andrea Porter

We need to be able to share a draft with HQ today, so if IDEM can look at it quickly, that'd be great.

Rita or Heather,

Please take a look at the attached draft flyer and let me know if it looks accurate or if there is anything that you think should be changed. Please also let me know if there is any info that you think should be added.

This flyer is based on points that Tom worked on earlier this week, but I have made a few changes to try to make it more direct.

Thank you.

Josh
